DIMM Size (GB)	Total Capacity	STREAM Triad relative memory bandwidth
8	128	68%
16	256	
32	512	
64	1024	
128*	2048	

* requires 'M' option Intel Xeon SP CPU

DIMM Size (GB)	Total Capacity	STREAM Triad relative memory bandwidth
8	192	100%
16	384	
32	768	
64	1536	
128*	3072	

* requires 'M' option Intel Xeon SP CPU

The STREAM Triad relative memory bandwidth information presented above is based on information from a whitepaper titled "Intel Xeon Scalable Family Balanced Memory Configurations" by Lenovo Press located at <https://lenovopress.com/lp0742-intel-xeon-scalable-family-balanced-memory-configurations>.
